INDUSTRIAL SAMPLE WASHING MACHINE SPECIFICATION

Capacity Will be As Per Your Requirement

SUBJECT: SAMPLE WASHING MACHINE
DESIGN AS PER GREEN MAC Model-110

- **Capacity As Per Requirement**
- Outer Shell sheets 2mm S.S. 304L for Tub
- Outer Shell sheets 2mm S.S. 304L For outer cover
- Outer Shell Blind **3mm** S.S. 304L
- Inner Shell Drum sheets 2mm S.S. 304L
- Inner Shell Drum Blind **3mm** S.S. 304L
- Drum Drive Shaft 60mm
- Bearing U.C.P 210 & bearing 207
- All bolt nut S.S, Drum Welding Totally Argon
- S.S. Level Indicator
- Reverse forward Panel with new accessories
- Drive Motor, 900RPM imported looted(as Per Capacity)
- Temperature Gauge Electronic & Manual
- Drain Valve S.S. Fabrication, MS Casting Pully
- Main Drive Shaft MS with support SS pipe
- Bearing fitting MS and Glind Dori Fitting with MS Casting
